

LOVE SHOULD KNOW WHEN TO LET GO.

Seventeen-year-old Brooke Bennett trusts what her camera can prove.

When a violent stomach illness sweeps through her town, the people who recover seem healthy. They remember every private joke, password, argument, and regret. They still say they love you. They simply no longer understand why love should ever let someone leave.

As Brooke documents the changes in her sister, her mother, and the world outside their front door, her evidence draws frightened strangers, along with someone patient enough to learn that the safest way to reach Brooke is not to chase her, but to become the person she will choose to follow.
